

Please do not allow federal regulations to supercede those of Wisconsin. It was a hard won battle to get the No-Call List law passed here. It is wonderful. Personally, I cannot begin to tell you how wonderful it is not to have those constant phone calls that occurred before the NoCall Law was passed. It may seem like no big deal ... just hang up. But it is a daily intrusion into everyday lives to have to answer the phone and put up with these unsolicited intrusions into our lives. Every single person I have spoke with on this issue does not want to receive these phone calls ... If I am not doing business with you, don't call me. Period. Allowing banks and companies (and their affiliates) to call for 18 months after I have discontinued business is not something the VAST majority of Wisconsin people want ... PLEASE DO NOT ALLOW THIS. Stand for ordinary people ... or stand for big business. What kind of a government will you be??? The choice you make states the answer. I sure hope you stand for ordinary people who OVERWHELMINGLY voted to pass this law in Wisconsin. Thank you for listening. Shelly Drefcinski
